EDUCATION

Indian Institute of Information Technology (IIIT) Bhagalpur Bhagalpur, Bihar
Bachelor of Technology in Computer Science and Engineering; CGPA: 8.5/10.0 Sep 2024 – Jul 2028
• **Coursework:** Data Structures & Algorithms, Operating Systems, DBMS, Object-Oriented Programming

EXPERIENCE

IIIT Bhagalpur - Adhyaay Board, Student Technical Society Bhagalpur, Bihar
Technical Mentor Sep 2024 – Present
• Mentored 15+ junior developers in React.js, Node.js, and Data Structures & Algorithms, conducting weekly code reviews and reducing average project ramp-up time by 50% (from 4 weeks to 2 weeks).
• Orchestrated targeted debugging sessions and algorithmic problem-solving modules, accelerating peer project submission rates by 30%.

PROJECTS

Pay Wallet | Full-Stack Payment System Apr 2025
• Engineered a full-stack MERN payment platform handling a daily throughput of 100+ transactions; integrated qrcode.js to streamline the checkout process from 4 steps to 1, reducing transaction completion time by 60%.
• Implemented real-time balance synchronization leveraging MongoDB change streams, and fortified user credentials using Bcrypt.js salted hashing for 20+ concurrent active users.
• Architected scalable RESTful APIs using Node.js and Express.js, maintaining high availability and seamless data flow.
• **Tech Stack:** MongoDB, Express.js, React.js, Node.js, Bcrypt, REST APIs

LLMQuiz Engine | Generative AI MCQ System Sep 2025 – Oct 2025
• Developed a Retrieval-Augmented Generation (RAG) pipeline utilizing LangChain and Pinecone for semantic content extraction from 100+ page PDFs, automatically generating 50+ MCQs per session with 80% accuracy.
• Optimized retrieval precision by 25% through token-aware chunking algorithms via PyPDF, and deployed a Streamlit user interface delivering real-time scoring with sub-2s latency.
• **Tech Stack:** Python, LangChain, OpenAI API, Pinecone, RAG, Streamlit

TALKSY | Real-Time Chat & Video Platform Jun 2025 – Jul 2025
• Constructed a WebSocket-based real-time messaging and video conferencing platform supporting group calls and screen sharing, achieving a message delivery latency of under 200ms for 10+ concurrent users.
• Integrated JWT-based authentication with token refresh mechanisms to secure 100% of REST API private routes, and utilized Stream API to ensure horizontally scalable real-time media delivery.
• **Tech Stack:** React.js, Node.js, Express.js, MongoDB, WebSockets, JWT, Stream API

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, TypeScript
Frontend: React.js, shadcn/ui, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, MongoDB, WebSockets, JWT Authentication
AI & GenAI: OpenAI API, LangChain, RAG Pipelines, Pinecone, Prompt Engineering, Hugging Face
Machine Learning: NumPy, Pandas, Scikit-learn, TensorFlow, Streamlit
Tools & Methodologies: Git, GitHub, GitHub Actions (CI/CD), Postman, Vercel

ACHIEVEMENTS

LeetCode Knight: Achieved a rating of 2000+ (Top 2% globally) with 500+ algorithmic problems solved.
CodeChef 3-Star: Attained a rating of 1600+, ranking in the top percentile in Division 2/3.
1st Place, Opcode Open Source (IIIT Bhagalpur): Contributed production-grade features to a live open-source codebase, ranking 1st among all college-wide teams.
2nd Place, Smart India Hackathon (SIH) Internal: Engineered a HealthTech platform integrating NAMASTE and ICD-11 standards, advancing as an internal round finalist.
